

- Soft Ride – New hybrid suspension combines air and rubber torsion for an excellent ride
- Independent – Ride and stability improve with independent wheel action
- Equalizing – Axle-to-axle load equalization allows use on triple axle trailers
- Reliable – Rubber cushions ride even if air is not available
- Maintains constant ride height for the ultimate ride
- Fully assembled for easy installation
- Adjustable axle alignment feature
- Available for single, tandem or triple axle applications in 6K, 7K, 8K and 10K capacities
- Optional ride height control valve, air generation and shock absorber kits are available
- Two year limited warranty

AIRFLEX[®]
AIR RIDE SUSPENSION

Smooth Out the Roughest Roads

How Airflex® provides a smoother ride

- Suspension brackets mount to the trailer frame
- The rubber torsion axle rides on air springs and the trailer is cushioned by both the air spring and rubber torsion springs

SPRINGS**

=

SOFT SMOOTH RIDE

Harsh shock from road hazards, pot holes and train tracks

Rubber absorbs some road shock

Air springs isolate even more of the bumps

Protects you and your cargo

Forged steel torsion arms

Internal rubber bump stop prevents damage due to loss of air

GEARED FOR INNOVATION SINCE 1960
